Vegetable Seed Trials

R. H. Cheemaker

JAN 22 1930

FOREWORD

IN SENDING out this, our Spring Catalog for 1930, we wish to heartily thank all our patrons who have favored us with their orders in the past. To these friends we need not try to recommend ourselves. They know of our prompt and efficient service and the high quality of our seeds and other garden products which we handle.

TO THOSE readers who have not already given us any business, we would say that the seeds we send out are of the best strains obtainable, of known pedigree, and have been grown expressly for us through contracts which we placed last Spring with some of the largest seed growers in the world. With the addition of a few new and meritorious varieties, these are the same strains which have given so much satisfaction to our customers in the past, and we solicit your orders feeling assured that you will be pleased and satisfied as a result.

WE CARRY at our store a large stock of Jardinieres, Vases, Bird Baths and Houses, Sundials and Garden Furnishings and Tools, which are not listed in this catalog. We are always pleased to welcome out-of-town customers at our store and show them our stock.

BEING LOCATED outside the limits of the large cities, such as New York or Philadelphia, we are enabled to work with a comparatively smaller overhead expenditure, and whatever economies are effected in this way we endeavor to pass on to our customers.

OUR WISH for all our friends is that they may experience both pleasure and profit from their gardening activities during the year 1930.

CUSTOMER'S SERVICE DEPARTMENT

WE ARE always pleased to help our customers, especially amateurs, who may need advice in connection with their gardening problems. If you are in doubt as to the special treatment or soil conditions for any particular plant, or desire information on suitable varieties for various local conditions, or in regard to your lawns, shrubbery, etc., do not hesitate to communicate with our "Service Department," which is always freely at the disposal of our customers.

GARDENERS AND FARMERS

WE HAVE at all times the names of practical gardeners and farmers on our register who are in want of situations. If parties desiring such will write us, we shall be glad to put them in communication with men we deem suitable. We make no charge for this service.

ORDER EARLY—We urge our patrons to send in their orders as soon as possible after this catalog is received. This allows us ample time to give careful attention to the filling and dispatching of same before the "crowded hours" tax our energy and resources to the limit, when the sowing season actually commences.

TETHER & DON, Inc., gives no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants they send out and they will not be in any way responsible for the crop. If the purchaser does not accept the seeds on these terms, they are at once to be returned.

LAWN GRASS SEEDS

For the formation of new lawns, 1 lb. will sow 200 square feet, or 10x20; 100 lbs. will sow one acre. For renovating old lawns, use one-half this quantity.

"EVERGREEN" LAWN GRASS

This is a mixture of the finest American and European grasses best adapted for lawns. It is prepared from our own formula, and is a careful blending of varieties suitable to producing the thick growth and velvety appearance so much sought after.

Lb. 65c., 5 lbs. \$3.00, 10 lbs. \$5.75, 25 lbs. \$14.25,
100 lbs. \$55.00

"CENTRAL PARK" LAWN GRASS

Weight per bushel, 20 lbs.

This is a popular lower priced mixture and is well suited for various soil conditions. Forms a thick turf in a very short time.

Lb. 50c., 5 lbs. \$2.25, 10 lbs. \$4.50, 25 lbs. \$10.50,
100 lbs. \$40.00

"SHADY PLACE" LAWN GRASS

Weight per bushel, 20 lbs.

This mixture is composed of grasses that are naturally adapted for growing under trees and shaded situations.

Lb. 70c., 5 lbs. \$3.25, 10 lbs. \$6.50, 25 lbs. \$15.50,
100 lbs. \$60.00

"LAWN RESTORING" GRASS MIXTURE

Weight per bushel, 20 lbs.

A mixture of grasses suited to take firm hold and quickly in unfavorable situations.

Lb. 60c., 5 lbs. \$2.75, 10 lbs. \$5.50, 25 lbs. \$13.00,
100 lbs. \$50.00

"LAWN TENNIS" GRASS MIXTURE

Weight per bushel, 20 lbs.

Will make a fine green and lasting turf that will improve with tramping.

5 lbs. \$2.75, 10 lbs. \$5.50, 25 lbs. \$13.00, 100 lbs. \$50.00

"TERRACE" GRASS MIXTURE

Weight per bushel, 20 lbs.

A mixture of grasses with long, interlacing roots, that will bind steep embankments.

5 lbs. \$2.75, 10 lbs. \$5.50, 25 lbs. \$13.00, 100 lbs. \$50.00

"SEASHORE" GRASS MIXTURE

Weight per bushel, 20 lbs.

Composed of grasses suitable for seaside lawns.

5 lbs. \$2.75, 10 lbs. \$5.50, 25 lbs. \$13.00, 100 lbs. \$50.00

Depth to Cover the Seed. Following is a good general rule—cover to a depth equal to $2\frac{1}{2}$ times the diameter of the seed. Exceptions—50 per cent deeper when sowing during hot weather, or on soils that dry out quickly; 50 per cent less deep when sowing on heavy land or during wet weather.

A Good Hint. Radish is a strong germinator, while Beet, Parsley, Carrot, Celery, Parsnip, Onion and some others are weak; it is recommended to mix a small quantity of Radish with these seeds when sowing, removing the Radishes afterwards. Radish seedlings break the soil crust and quickly mark your row. This process is particularly advantageous upon soils that bake.

Novelties and Specialties in Vegetables

White Boston Lettuce

BEET, Winter Keeper

This Beet is also known as Long Season and Coal Black.

It is a late Beet, not of handsome shape, but of exceptionally fine quality, remaining sweet and tender even when very large.

The Beets will keep all Winter and retain their fine quality until Spring. They are half long, very dark red and have green foliage.

Pkt. 15c., oz. 40c., $\frac{1}{4}$ lb. \$1.25, lb. \$4.00

BROCCOLI, Italian Green Calabrese

There is a growing demand for this vegetable, which is very similar to Cauliflower, both in culture and cooking.

Pkt. 25c; $\frac{1}{4}$ oz. 75c; 1 oz. \$2.50

BRUSSELS SPROUTS, "Brechtin Castle"

A superior strain of fine quality and a wonderful exhibition variety.

Pkt. 10c., $\frac{1}{2}$ oz. 30c., oz. 60c., $\frac{1}{4}$ lb. \$2.00

CARROT, New Red Cored Chantenay

This new variety has shorter tops and the foliage is fine cut. The color is a rich orange, decidedly deeper than the ordinary Chantenay. The cores are small. The roots grow about $5\frac{1}{2}$ to 6 inches long and 2 to $2\frac{1}{2}$ inches in diameter, having a very small rat tail, and run very uniform in size and appearance. This is a little earlier in maturity than ordinary Chantenay.

Per pkt. 20c; oz. 40c; $\frac{1}{4}$ lb. \$1.20; lb. \$4.00

CAULIFLOWER, "First and Best"

This is the earliest of all Cauliflowers and is particularly adapted for forcing under glass, and for very early Spring crop outdoors. It is very white, smooth and even in character.

Pkt. 50c., $\frac{1}{4}$ oz. \$2.50, oz. \$8.00

CORN, Golden Sunshine

The earliest of the Golden Bantam type, maturing a week to 10 days earlier than that variety. More dwarf in habit than Bantam, with ears $6\frac{1}{2}$ inches long with 12 rows of broad, yellow, sweet grains.

Lb. 40c., 2 lbs. 75c., 10 lbs. \$3.50

CUCUMBER, "Aldon White Spine"

The finest type of White Spine yet introduced; very early, productive and disease resistant. Fruits 9 inches long, slightly tapering, flesh white, very firm and crisp, with very few seeds. Color rich dark green, which does not fade.

Pkt. 10c., oz. 25c., $\frac{1}{4}$ lb. 75c.

CUCUMBER, "Longfellow"

An excellent long, slender, dark green variety equally desirable for greenhouse forcing or out door culture. An ideal type for the private garden or as a "straight pack" variety for shipment to market. 12 to 14 inches long by $2\frac{1}{2}$ inches in diameter.

Pkt. 15c; 1 oz. 50c; $\frac{1}{4}$ lb. \$1.75

CELERY, "Golden Prize"

Resembles Golden Self Blanching in appearance, crispness and fine, nutty flavor, although somewhat earlier, larger and of a ranker growth. Blanching quickly with a full golden heart. Apparently more disease resistant than other yellow Celeries.

Pkt. 20c., $\frac{1}{2}$ oz. 3.50, oz. \$6.00, $\frac{1}{4}$ lb. \$20.00

LETTUCE, "White Boston"

The best strain of the butter head type, 10 days earlier than Big Boston. Very large frame and head. Will not tipburn, nor turn red, and will hold several days in the field after maturity before bolting to seed.

Pkt. 15c., oz. \$1.00, $\frac{1}{4}$ lb. \$3.00

ONION, "Ailsa Craig"

This variety is used very extensively for exhibition purposes as well as culinary. Will grow very large, often weighing 2 lbs. apiece.

Our strain is extra selected. Pale straw-colored.

Pkt. 25c., oz. \$1.00, $\frac{1}{4}$ lb. \$3.50

PEPPER, "California Wonder"

This new and distinct Pepper possesses many points of excellence. It has the fine quality of the Pimiento and the size of Giant Crimson with a thickness of flesh unknown in any variety of pepper. It is not uncommon to find fruits showing flesh three-eighths of an inch thick. In addition to this it is of the finest quality, being sweet, crisp, tender and entirely free from pungency.

Pkt. 25c; $\frac{1}{2}$ oz. 75c; 1 oz. \$1.25

TOMATO, Marglobe

A main crop scarlet fruited variety of globe type. It fruits early and continues to yield up until frost. It resists wilt and is immune to rust.

Per pkt. 15c; $\frac{1}{2}$ oz. 60c; 1 oz. \$1.00; $\frac{1}{4}$ lb. \$3.50

ASTER

Improved California Sunshine or Anemone Flowered

An interesting and attractive type of Aster. The plants are sturdy and strong, throwing up long flower stalks, making wonderful cut flowers. Some of the flowers have quilled petals; all have a cushion center of tiny quills of a contrasting color which makes a flower look as if it were covered with snowflakes. The blue flowers are dotted with a paler blue and some in white, and the rose in a lighter shade of pink or white. The California type of Sunshine Aster which we offer is a great improvement on the original, the flowers being larger and borne on longer stems. The entire effect is very graceful and pleasing and no gardener should fail to grow this beautiful variety.

NEW FORCING CALENDULA

Campfire or Sensation

It is with pleasure that we introduce to our customers this distinct new type originating from a mutation from Orange King. It is of vigorous growth, the flowers borne on stout stems, needing little disbudding. The blooms are flat and are undoubtedly larger than those of any type previously introduced. The color of the petals is brilliant orange with a scarlet sheen with full yellow center.

Pkt. 25c., ½ oz. \$2.00

CYNOGLOSSUM, Amabile

The flowers are of a beautiful shade of blue and resemble the Myosotis or Forget-me-not, very closely. It is an annual and grows on tall, graceful branches 18 to 20 inches in height. Cut the flowers as they bloom and it will flower continually throughout the Summer. Ideal for bedding as well as for cut flowers.

Aster California Sunshine

MASTERPIECE ASTERS

The Masterpiece Aster is a new midseason to late flowering strain and is characterized by the exceptionally large blooms, long, vigorous stems and sturdy habit of growth. The plants grow 3 to 3½ feet high with long stems, 18 to 30 inches in length, bearing beautifully formed and interlaced flowers 5 to 6 inches in diameter. By careful selection the strain has been still further improved since we offered it last season. The purity and clarity of the colors being unapproached by any other type of Aster. The blooms are excellent for cutting and stand up well when shipped.

We offer the following colors:

PURE WHITE
DEEP ROSE
FLESH PINK

LAVENDER BLUE
DARK BLUE

Ridgefield, Conn., October 15, 1923.

TETHER & DON, Paterson, N. J.

Dear Sirs: Allow me to compliment you on your delphinium seed, Wrexham Hollyhock Strain.

I have never had such results in my 26 years in America. Some of my plants have grown eleven feet high and the blooms three inches across.

They were so exceptional that I had to make mention of them in an article I wrote for the Saturday Evening Post of last September.

Yours truly,
(Signed) LEON SAUVE.

WREXHAM HOLLYHOCK DELPHINIUMS

A phenomenal new race producing large, massive spikes of enormous length, with immense individual flowers which are indescribable in richness and various tints of color. Each plant is a marvelous vision of inconceivable beauty and splendor; a masterpiece within itself. No herbaceous border or garden is complete without these beautiful slender columns rising over the lower spreading plants.

We are offering the following named varieties.

	Pkt.
BLUE QUEEN. Azure-blue with blackish-brown center. Forms a very good spike of single flowers. 4½ ft.	\$2.00
ELSA. Sky-blue and mauve with white center. Splendid habit and fine grower. 5 ft.	2.00
GEORGE COCHRANE. Deep rosy purple shading lighter at center, with a white eye. Large, semi-double flowers, forming very fine spikes. 5 ft.	2.00
MILLCENT BLACKMORE. Pale blue and mauve with large, black center. Very large and splendid; perfect formed spikes. 5 ft.	2.00
MONARCH OF WALES. One of the most famous varieties; gigantic spikes of deep blue and mauve. 5 to 6 ft.	2.00
REV. CHARLES STORR. Deep blue and mauve; large flowers and well formed spikes. 5 ft.	2.00
SUPERB MIXED. Including many other equally fine sorts	1.50
Collection, above 6 varieties, 1 pkt. each, \$10.00	

A slight variation in color must be expected in named sorts, but all will be true Hollyhock type.

Plants of Wrexham Strain \$1.00 each; \$10.00 per doz.

Other Delphinium plants, see page 57.

For general line of Delphinium seeds see page 31.

T & D's General List of Choice Flower Seeds

H.A.—Designates Hardy Annuals. These can be sown in the open ground. They flower and mature their seed and die in one year.

H.H.A.—Designates Half Hardy Annuals. For early results sow in the house, greenhouse or hotbed in February to April and transplant to the garden as soon as the weather is settled, or seed may be sown outdoors about the middle of May.

H.B.—Designates Hardy Biennials. Sow in the open border from June to September. The plants Winter without protection, flower and die the second year. Although some varieties will flower the first year if sown very early.

H.H.B.—Designates Half Hardy Biennials. Must have protection during the Winter.

H.P.—Designates Hardy Perennials. They are perfectly hardy and will stand over Winter without protection. With few exceptions they flower the second year after sowing and continue to bloom for many years.

H.H.P.—Designates Half Hardy Perennials. Plants require protection during the Winter.

G.P.—Designates Greenhouse Plants. They should be grown under glass in the greenhouse, conservatory or in the house window.

T. & D.'s CHOICE ZINNIAS

YOUTH AND OLD AGE

The Zinnia is one of the most brilliant, showy and satisfactory of annuals, and has long been a general favorite, and are now enjoying a wide popularity, not only for garden decoration, but also for cutting. The seed can be sown early in the hotbed or light window and transplanted, or sown later in the open ground. They come into flower early in the Summer and keep on blooming until frost.

GIANT DOUBLE ZINNIAS

A special strain of this grand old favorite free and continuous flowering annual, which produces flowers of colossal size, specimens measuring from 5 to 6 inches across, being not unusual. Plants are of extremely robust habit, attaining a height of about 3 feet and bearing on long, strong stems, semi-globular, mostly very double flowers; grown under favorable conditions they remain in bloom from early Summer to late Autumn.

DAHLIAS

The popularity of the Dahlia in recent years has caused the production of many new varieties. The following list comprises the most recent novelties and the cream of recent introductions.

We offer both dormant roots (Tubers) and green plants. Roots can be shipped from March to May. Young plants can be delivered from May to July.

Dec.—Decorative; Cac.—Cactus; HC.—Hybrid Cactus; PD.—Peony Decorative; P.—Peony; Sh.—Show.

NEW AND RECENT INTRODUCTIONS

	Tubers	Plants
Antartica (MacDonald) Dec. A pure white of large size, very free flowering with long sturdy stems holding the flowers erect at all times		\$5.00
Andreas Hofer (Drew) HC. Color is a glowing light pink, with a salmon rose suffusion	2.50	1.25
Betty Ivins, Dec. Color rich salmon, overlaid with an amber glow showing a rosy pink reverse	5.00	2.50
Cardinalis (Kennedy) Dec. Brilliant Cardinal Red. Splendid formation, flowers borne on strong upright stems	10.00	5.00
Charlotte La Frenz, D. Bright gold in center, shading to a rich apricot in the outer petals	5.00	2.50
Chemaris Eureka (Chemar) Dec. Almost pure white, the tips of the center petals being lavender	10.00	5.00
City of New York (Dec.) Pale golden amber, with salmon blushes and tints, beginning about halfway on each petal, and shading to a rich, pure salmon color at the edge of the petals. There is just a touch of salmon on the center petals as they come out. Good stems and excellent keeper	10.00	5.00
Clansman (Mills) Dec. A beautiful apricot, orange center, darkening to jasper pink, radiating a golden sheen	5.00	2.50
Conquistador (Ballego) HC. A soft creamy yellow, shading to a glowing pink at the base of the petals. The stems are strong and hold the large flowers well above the foliage	7.50	3.75
Cora Butterworth (Chapman) Dec. A giant primrose yellow, with an excellent stem	10.00	5.00
Coringa (Broomall) Dec. Yellow, shaded cornelian red. A rich, coppery-orange color. Habit of plant is quite dwarf. As a bedding Dahlia, it is in a class by itself.	5.00	2.50
Daily Mirror (Stredwick) Dec. Large dark purple, well formed flowers on splendid stems	5.00	2.50
Derrill W. Hart (Broomall) Dec. Yellow, shading to grenadine-red; in cool weather almost copper color	7.50	3.75
D. J. Sandt (V. & M.) Dec. Reddish orange striped and splashed blood red with a suggestion of rose violet on the reverse petals. The petals curve outward twisting at the points	10.00	5.00
Dorothy Stone (F. & M.) Dec. A beautiful rose pink flowers on fine stems	10.00	5.00

Jersey's Triumph

	Tubers	Plants
Dr. John Carman (Dixon) Dec. An exceptionally strong and vigorous grower. Almost a true American Beauty Rose. Stems are excellent and the foliage strong and tough	7.50	3.75
Eagle Rock Gem, Cac. Maize-yellow, shaded orient-pink, this is certainly the finest shaped, strong-stemmed Cactus Dahlia yet produced	10.00	5.00
Edith Parke Yoke (V. & M.) Dec. Exquisite rich fuschia shade. The petals are curled and form a flower of great depth.	15.00	7.50
Evelyn Norris (Broomall) Dec. Light purple, large blooms are borne aloft on fine stems		7.50
Fort Monmouth (Kemp) HC. One of the giants of the Dahlia world. The color is a rich crimson-maroon, with a brightness unusual in the darker tones, and just a faint tinge of bluish-violet at tips of petals	7.50	3.75
Gertrude Ederle, HC. Is of a lovely primrose color and has unusual keeping qualities	5.00	2.50
Goodnight (Broomall) Dec. Of medium height, but the dark crimson flowers are massive	15.00	7.50
Grace Curling (Stredwick) Dec. Clear Cattleya lavender, shading white at the base of the petals when opening	10.00	5.00
Grover Whalen (F. & M.) Dec. A pure orange Dahlia with ideal stems. Splendid cut flower	7.50	3.75
Harry Strutt (Stredwick) C. Rich deep crimson scarlet. Good stems	2.00	1.00
Ivory (Boston) Dec. Large, creamy white flowers without markings		5.00

DAHLIAS, NEW AND RECENT INTRODUCTIONS—Continued

	Tubers	Plants
Jane Cowl (Down) Dec. A large flower of buff and old gold, blending to a bright salmon at the center	7.50	3.75
Jean Trimbee (Trimbee) HC. Beautiful Petunia. Violet, strong vigorous habit, free bloomer	10.00	5.00
Jersey's Glory (Waite) Dec. The color is best described as a yellow hue of orange. The stems are long and stiff	7.50	3.75
Jersey's Ruby (Waite) Dec. Plant is medium size, and stems so stiff that the plant does not need staking. Color is dark ruby red	5.00	2.50
Jersey's Triumph (Waite) Dec. Bright copper flushed with salmon bronze. Habit is the same as Jersey's Beauty	10.00	5.00
Judge William McKeen (V. & M.) Dec. Flowers are large, champagne deeping in the center to apricot, with erect stems.	15.00	7.50
Katherine Cole (McDowell) Dec. At the last New York show this beautiful Dahlia won the Darnell Cup for the best keeping variety. It is a beautiful combination of light pink and cream. Very good stem, and the foliage is thick and leathery	7.50	
Kathleen Norris (F. & M.) Dec. A bloom of gigantic proportions. Color a true rose-pink, later deepening to mallow-pink, but paler in the young central petals. Foliage dark green and leathery	10.00	5.00
Kemps Violet Wonder (Kemp) Dec. The best violet-colored Dahlia to date. The predominating color is a rich naphthaline-violet with an underlying tone of royal purple. Reverse is bluish-violet ..	7.50	3.75
Lavendula , Dec. A large-flowered lavender. The color is a pleasing shade of lavender	3.00	1.50
Lilac Glory (Ballego) C. Soft lilac, medium in size with ideal stems	5.00	2.50
Mrs. Horace Mann (F. & M.) Dec. A rich salmon shade. Free flowering and good stems	4.00	2.00
My Maryland (Down) HC. This graceful, broad-petaled Hybrid Cactus is a rich, bright pink, each petal tipped with ivory.	7.50	3.75
Netawaka , HD. Orange-yellow base, shading to jasper-red, reverse of petals bright carmine. The petals are twisted so that the reverse color is very much in evidence	7.50	3.75
Regal (Boston) Dec. A delightful and different combination of Autumn shades; bronze, heavily suffused with dull petals giving an effect of burnished copper	15.00	7.50
Sanhican's Beauty (F. & M.) Soft pinkish orange. Flowers medium size with excellent stems	5.00	2.50
Sanhican's Peach (F. & M.) Dec. In color, it is exactly the shade of a ripe California Peach, with a real Peach cheek glow. Its attractiveness is further enhanced by the oddly twisted petals with stag-horn tips	5.00	2.50

T. & D.'S SUPERB GLADIOLUS

These grand flowers still maintain their leadership among Summer flowering bulbs. And they have not yet reached perfection, for year after year, new and improved types are being introduced, showing larger flowers and novel shades, that are replacing rapidly the older sorts.

Gladiolus are easily grown, blooms can be had over a long period by planting them from April until July. The Primulinus varieties usually bloom, with favorable weather, in 60 days and the large flowering sorts from 70 to 100 days. Planting about four inches deep will suit the average conditions.

SPECIAL AND NEWER VARIETIES

The following list represents the very choicest of the newer varieties that have been consistent winners at the leading exhibitions and stock is now sufficiently available to enable us to offer them at very reasonable prices.

HARDY GARDEN LILIES

The Lilies listed below are for spring planting and should be planted by June 1st. Bulbs should be planted six inches deep except where noted. Lilies do best in the hardy border or among shrubbery, because the flowering stems bear masses of roots immediately below the ground surface, and the shady situation helps protect these feeding roots from the hot sun. Lilies thrive in any well-drained garden soil where the ground does not become water-logged, but do not want to come in contact with fresh manure.

HARDY CHRYSANTHEMUMS

These plants are indispensable in the garden or hardy border as they produce a profusion of blooms giving color and beauty to the garden at a time when other plants have been destroyed by frost. They are reasonably hardy if planted in a well-drained position and if given a slight protection of leaves or loose litter during the winter.

Chrysanthemums are divided in four groups as listed below. The varieties described below have been selected from an immense list and we believe them to be the best in their respective class and color.

All plants — 25c each;

\$2.50 per dozen;

\$20.00 per 100.

ROSES

Everybody who has a garden must have Roses. No home is complete without a few of the dwarf varieties grouped in the garden or in beds in the lawn. A rambler or so on the fence or on a trellis adds greatly to the beauty and arrangement of the yard and garden.

Culture and Hints on Growing. Roses like a well drained location where they will get the full sun for at least part of the day. The soil should be prepared at least 18 inches deep with which about one-third of its bulk is replaced by well rotted cow manure. As roses are great feeders, a trowel full of Bone Meal worked around the plant two or three times a season will insure better results.

In planting make the holes rather broader than deep, so that the roots may be spread out naturally in a horizontal position. Set the plant so that the junction of the root and top will be just under the ground surface when leveled off. Work fine soil among the roots, tamping it firmly with fingers and fist, and when roots are all covered tamp it solid. Water the plant well with a full pail of water.

We are in an exceptionally good position to supply extra fine Rose bushes, as they are grown within a short distance from our store, under our personal supervision. All plants are strong, sturdy, 3-year-old bushes and are guaranteed true to name.

TETHER & DON'S "SPECIAL" LAWN MOWER

After careful and intensive study of lawn mowers, we are pleased to offer the line of "Special Mowers" which we think is the best and most serviceable machine yet introduced to our many customers.

The special feature of these machines, besides the first-class workmanship and quality of material, is the method of drawcut which is the scientific principle of grass cutting. Briefly, the principle is this. The revolving wiper blades draw the grass across the stationary cutting knife, bending the grass backward at an acute angle. The knife, not the blades, does the actual cutting, the action being identically similar to that in using a pair of shears.

These are light easy running machines, 10 inch wheels; four blade, crucible steel drawcut wiper blades, hardened and tempered. Self-adjusting ball bearings and dust proof oil cups at all moving parts. The under knife is of crucible steel with lipped edge, and is automatically self-sharpening, screwed to the strong, rigid truss knife bar.

We can furnish the Special Mower in four sizes.

14 inch \$12.50; 16 inch \$13.50; 18 inch \$14.50; 20 inch \$15.50.
